

The floor plan illustrates the layout of the 'Made in China' pavilion, featuring several exhibition halls and conference rooms. The plan is divided into sections for different types of exhibits, including agricultural machinery, components, and general agricultural products. Key areas include:

- Halls 5, 6, 7, and 8:** Main exhibition spaces for various agricultural machinery and equipment.
- Conference Rooms (K, L, M, N, P):** Spaces for meetings and presentations.
- Registration Area:** Located near the entrance, featuring a large registration desk and a 'Pavilion Made in China' sign.
- AGROKOMPONENT Section:** A dedicated area for agricultural components and parts.
- Booths and Exhibits:** Numerous booths for specific companies and products, such as CLAAS, Amazone, Krone, and others.

The plan also includes a detailed map of the pavilion's location within the exhibition grounds, showing the main entrance and surrounding areas.
